

University „Džemal Bijedić” Mostar

Faculty of Information Technologys

www.fit.ba

Fakultet informacijskih tehnologija
Mr. sc. Jasmin Azemović, MVP, MCT

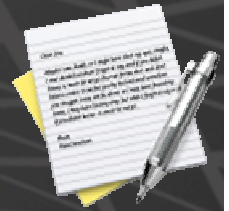

Summary

- History
- WUS@FIT
- How DL is started
- Ways of study
- Academic :: institutional cooperation
- Academics :: IT certificates :: Industry
- Current research & projects
- Conferences

History

- Decision of the University Council 10th October 1997.
- Significant interest in students
- Computer Studies -> Faculty of Information Technology (FIT): 2003.
 - ~ 3000 students
 - 912 active
- The transience of students:
 - 168 completed the two-year study
 - 108 completed the four-year study
 - 13 master of science
 - 4 Ph.D.

WUS@FIT

- eLearning
- eContent
- CDP+
- BGP+

How DL is started

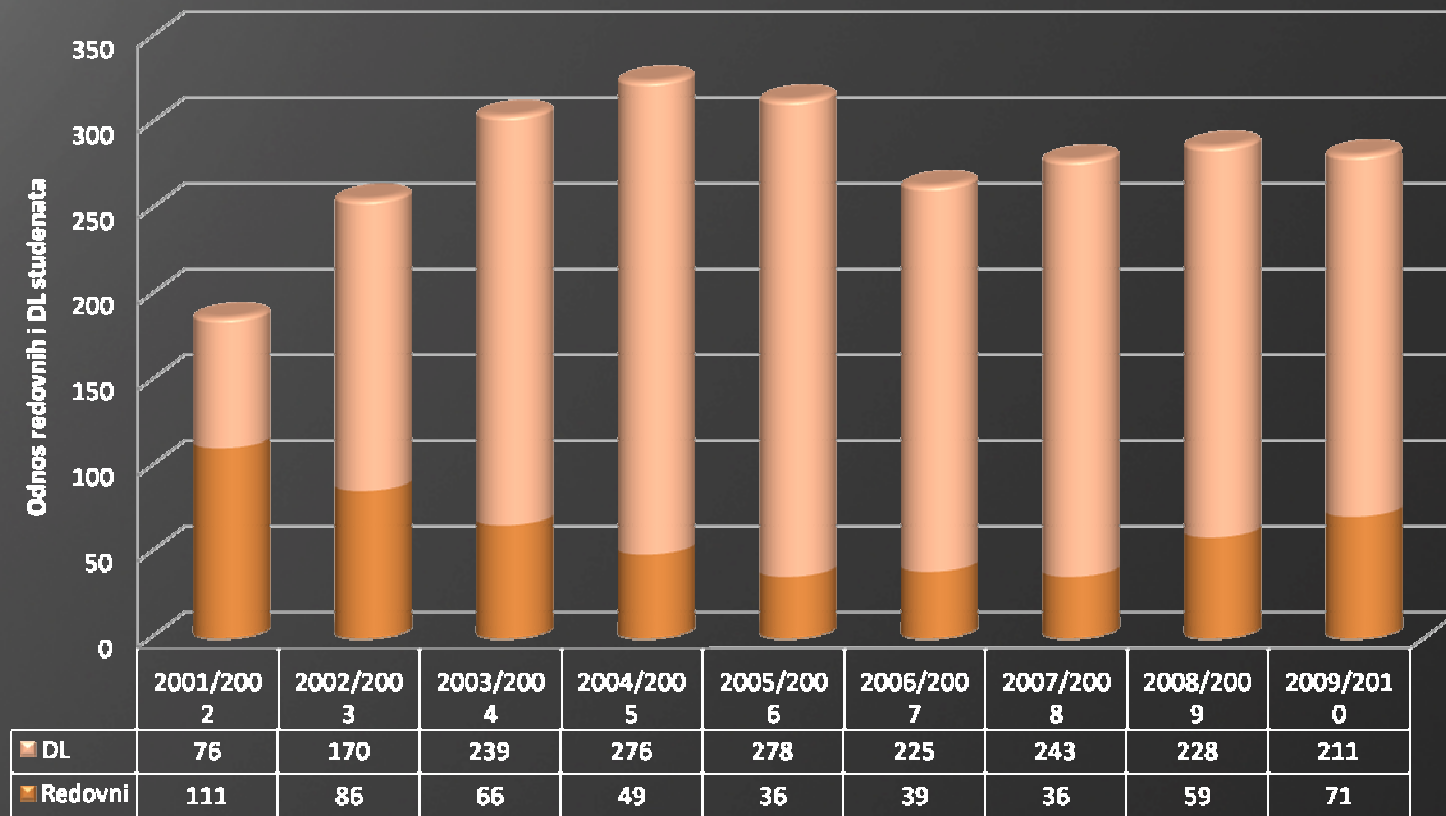

- Mail
 - First-generation students talk is received via e-mail service (50 students);;
- FTP
 - www.studijinformatike.com
 - The second generation had FTP access for years;
 - There was a problem handling (100 +50 students);
- DLWMS 1
 - The third generation has got a fully (*in house*)functional web application (300 students);
 - partially funded by WUS
 - After two years of use we started development of DLWMS 2;

In house solution?

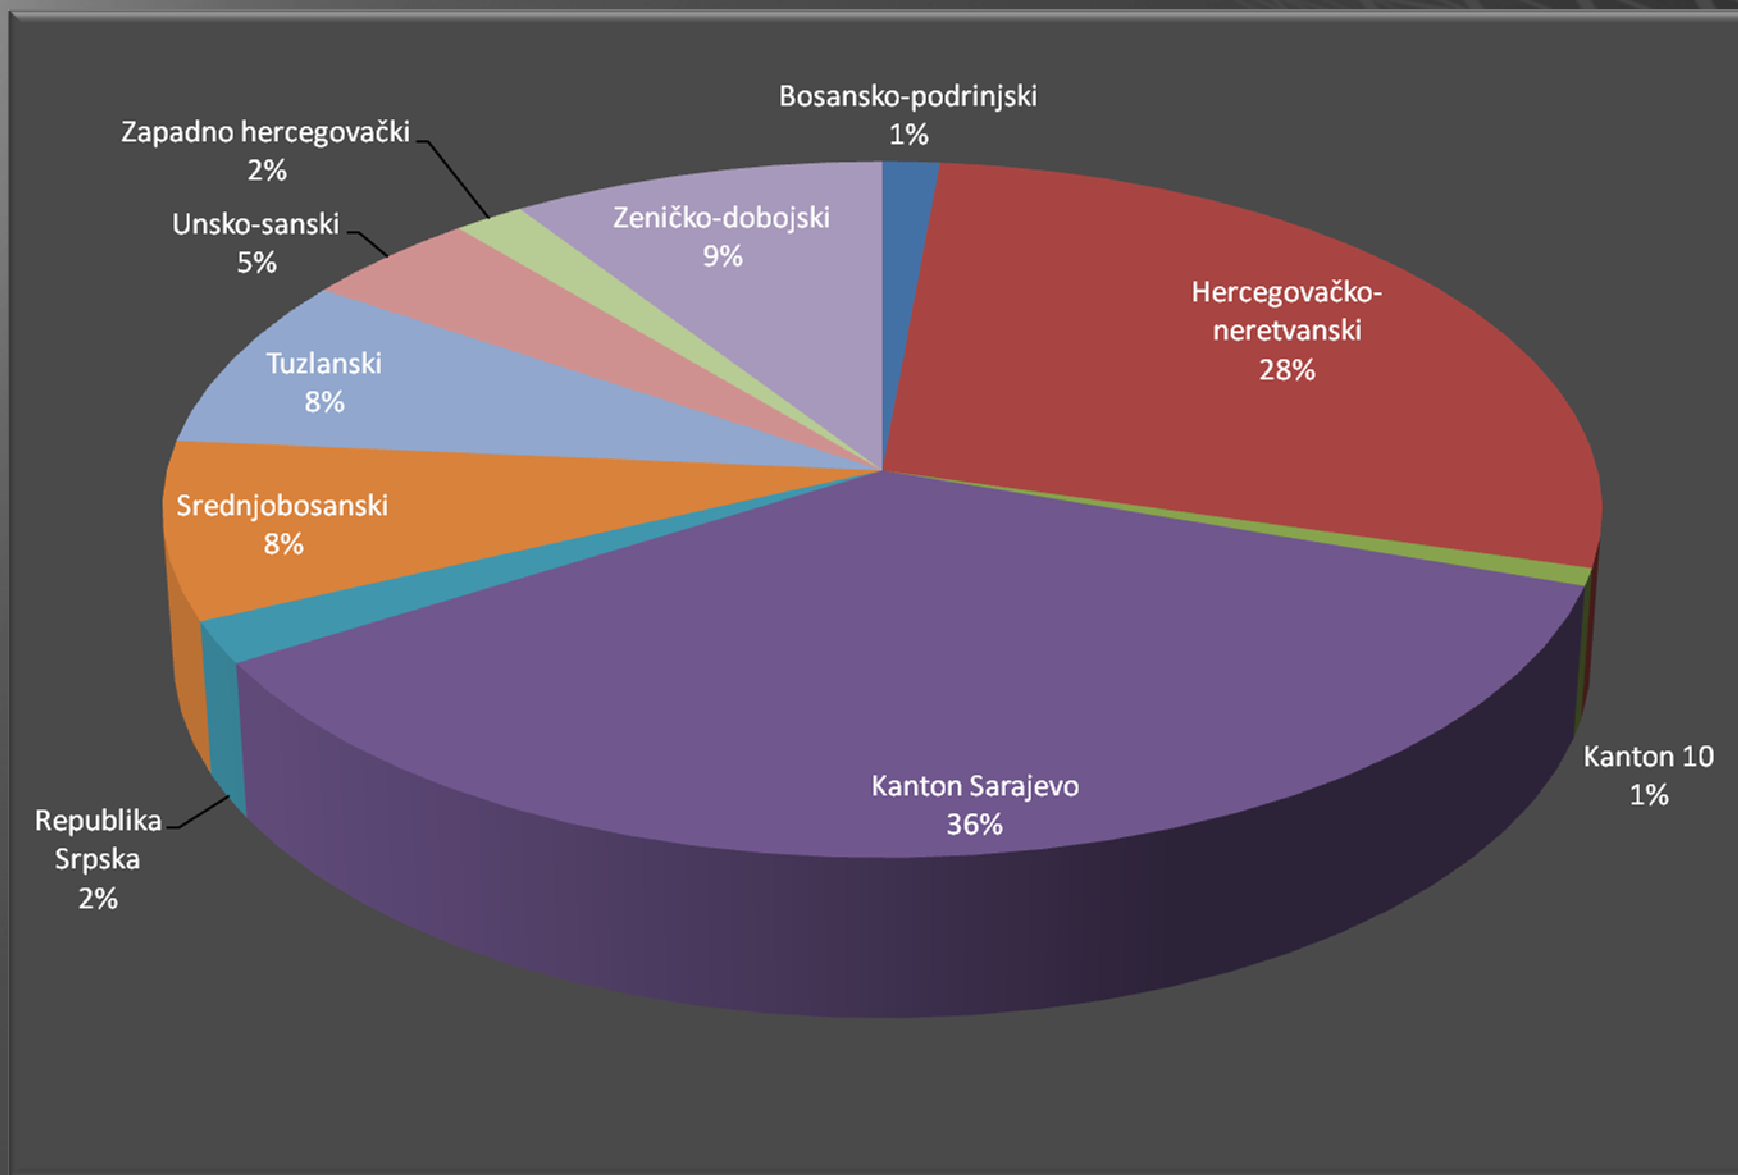

- Specific educational system;
 - The "old" system
 - The new system
 - Mix system
- State of the enterprise software market;
 - Existing systems are expensive
 - halfway
 - Limited functionality
 - difficult to integrate into existing infrastructure
- Etc.

Ways of study (Comparativ analysis)

- Regular students (~25%)
- DL students (Distance Learning) (~75%)

Ways of study (geographical distribution)

Ways of study (Remote DL centers)

Academic :: institutional cooperation

Academys :: IT certificates :: Industry

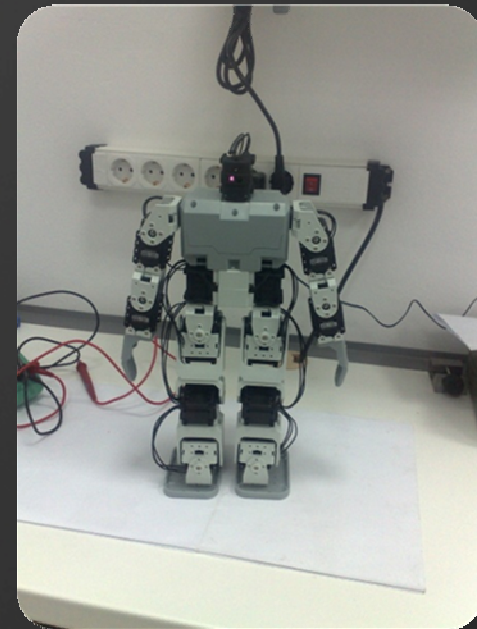

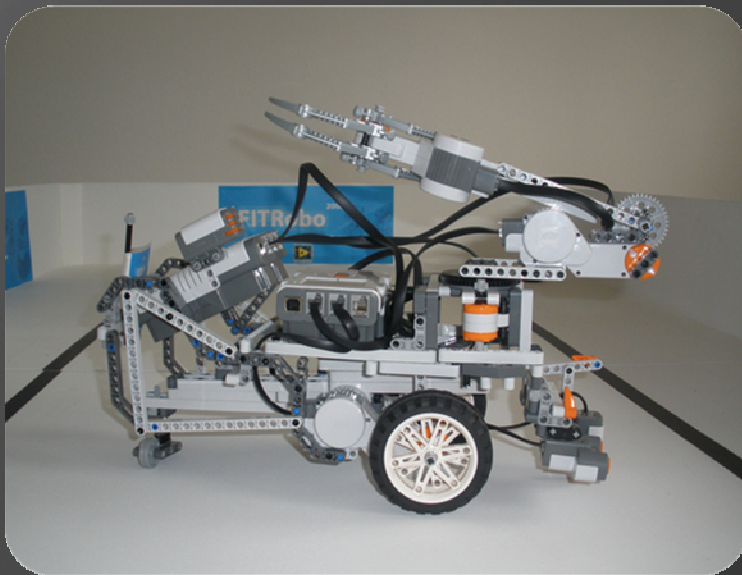

- Cisco Academy
 - Established in 2001.
 - ~ 500 participants (161 active)
- Microsoft Academy
 - Established 2010
- Cooperation with state and private companys:
 - Green River Media (London, Great Britain)
 - DISTI
 - RecroNET
 - Association of Cardiologists B&H
 - ...

Microsoft®

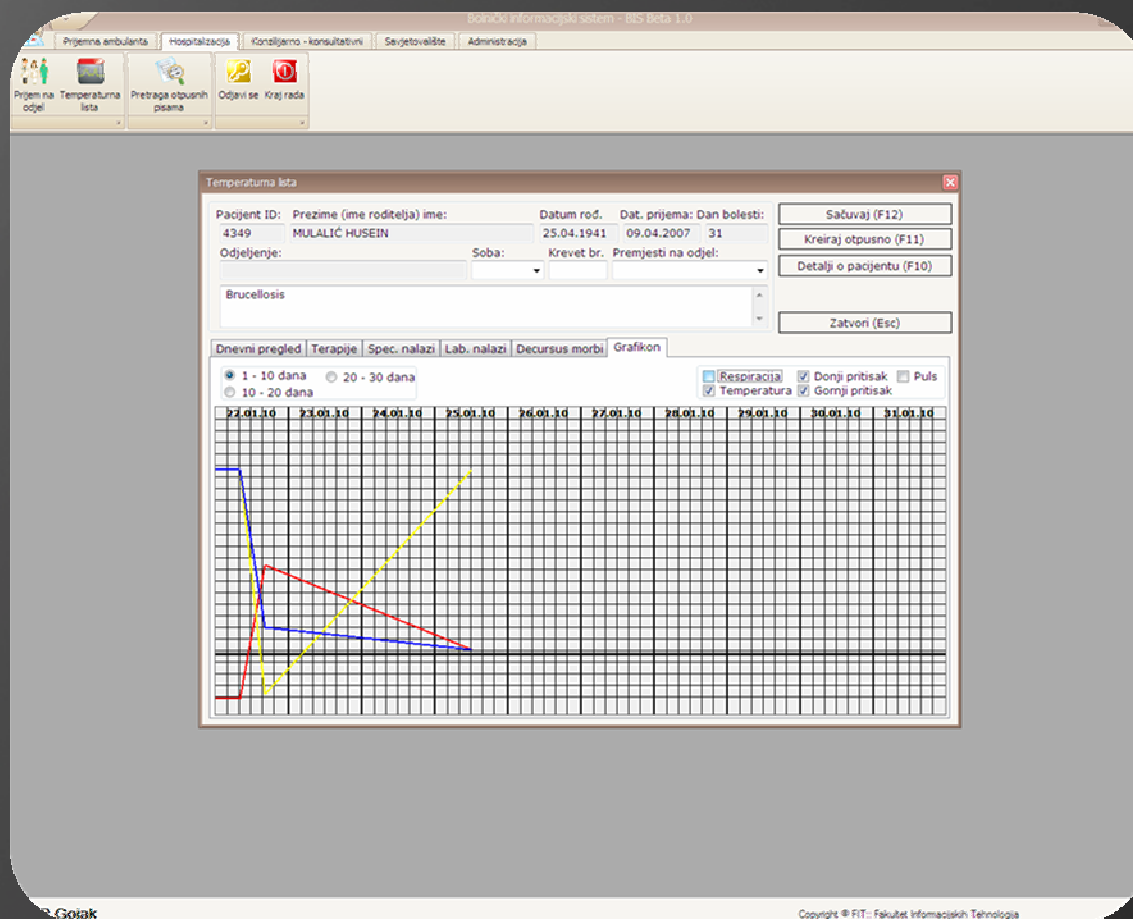

Current research & projects

- FITRobo

Current research & projects

- HIS (Hospital Information System)

Current research & projects

- Environment digitalization
 - UNESCO protected Old City of Prizren
 - Karadozbeq mosque
 - Virtual City of Prizren

Conferences

- So far, five international IT conference

Important dates:

Paper Submission (Full Paper)

31.05.2011

Notification of Acceptance

15.06.2011

Final Paper Submission

31.06.2011

Authors' Registration

Until 15.07.2011

Conference Dates

9th – 10th September 2011

The background features a dark gradient from light grey at the top to black at the bottom. A complex grid of thin lines, primarily in a dark red color, forms a curved, tunnel-like structure that recedes into the distance. The lines are arranged in a way that creates a sense of depth and perspective.

Thank you...
